

NORTH PERRY AVENUE WATER DISTRICT

Cross-Connection Control Survey

This survey is for the purpose of collecting data so the district can take every precaution to help protect the integrity of our water supply and update the Districts records to assure that each and every one of our customers have safe drinking water. **A cross-connection is any actual or potential physical connection between a public water system and the consumer's water system and source of non-potable liquid, solid, or gas that could contaminate the potable water supply by backflow.**
